

# Product Manuals

## Product Overview

Our software, “TechSolve,” is a comprehensive tool designed to streamline your workflow by integrating task management, communication, and analytics into one platform.

## Key Features

- **Task Management:** Create, assign, and track tasks with ease.
- **Real-Time Communication:** Chat and video conferencing within the app.
- **Analytics Dashboard:** Visualize your team’s performance and project progress.
- **Integration:** Connect with popular tools like Slack, Trello, and more.

## Technical Specifications

- **Operating Systems:** Windows 10+, macOS 10.14+, Linux (Ubuntu 18.04+)
- **Browser Support:** Chrome, Firefox, Safari, Edge (latest versions)
- **Mobile App:** Available on iOS and Android

## Usage Guides

1. **Getting Started:** Download and install TechSolve from our website. Follow the on-screen instructions to set up your account.
2. **Creating a Task:** Click on the “New Task” button, fill in the details, and assign it to a team member.
3. **Using Chat:** Navigate to the “Chat” tab, select a contact or group, and start messaging.
4. **Viewing Analytics:** Go to the “Dashboard” to see real-time analytics of your projects.

## Troubleshooting

- **Login Issues:** Ensure your credentials are correct. Use the “Forgot Password” feature if needed.
- **App Crashes:** Check for updates or reinstall the app. Contact support if the issue persists.
- **Sync Problems:** Verify your internet connection and try syncing again.
